The Econ T is a compact, easy to program pump with flexibility to schedule up to 24 separate events within a 7 day period.

Each separate event can run from a minimum of 1 minute to a maximum of 23 hours and 59 minutes within each programmed day.

The automatic dosing control is reliable for timed applications including injection of enzymes for drain line maintenance and biocide feed in small cooling towers or water fountains.

Control panel features a 24 hour integral clock that has a battery backup to maintain the time of day.
